Courtroom: 15  
Hon. Barry Ted Moskowitz

NO ORAL ARGUMENT UNLESS  
REQUESTED BY THE COURT

1 **I. INTRODUCTION**

2 **A. This Case Is In Its Earliest Stages**

3 On January 11, 2008, Sorensen Research Development and Trust (“SRDT”) sued, Ryobi  
4 Technologies, Inc. (“RTI”) and Techtronic Industries North America Inc. (“TTINA”) (collectively  
5 referred to as “Defendants”) for alleged infringement of U.S. Patent No. 4,935,184 (“the ’184 patent”).  
6 Defendants filed an answer on March 5, 2008. There has been no other activity in this case. In fact, this  
7 case is in its very early stages. In particular, there has not been a Rule 16 conference, the parties have  
8 not exchanged Rule 26 disclosures, an early neutral evaluation has not been scheduled (let alone even  
9 discussed), there has not been a scheduling conference, and there is no scheduling order or trial date set.

10 **B. The ’184 Patent Is The Subject of Two Granted Requests For Reexamination**

11 Black & Decker filed a third party request for *ex parte* reexamination of the ’184 Patent in the  
12 United States Patent and Trademark Office (“PTO”) on July 30, 2007 (“the first request for  
13 reexamination”).<sup>1</sup> The first request for reexamination was granted on October 11, 2007.<sup>2</sup> In granting  
14 the first request for reexamination, the PTO found 13 substantial new questions of patentability based on  
15 eight prior art references (“the First Reexamination Order”).<sup>3</sup>

16 On December 21, 2007, a second third party request for *ex parte* reexamination was filed with  
17 the PTO (“the second request for reexamination”).<sup>4</sup> On February 21, 2008, the PTO granted the second  
18 request for reexamination, raising nine substantial new questions of patentability based on ten references  
19 (the “Second Reexamination Order”).<sup>5</sup> The Second Reexamination Order included eight references that  
20 were not considered or relied upon in the First Reexamination Order.<sup>6</sup> Thus, in total, there are 22

21  
22  
23 <sup>1</sup> *Sorensen v. Black & Decker*, Case No. 06cv1572 BTM (CAB), hereinafter “*Sorensen v. Black & Decker*”. The PTO-  
24 stamped transmittal for the First Request for Reexamination is attached hereto as Exhibit 1 to the accompanying Declaration  
of Robert S. Mallin In Support of Motion To Stay Pending Outcome of Reexamination Proceedings (“Mallin Decl.”).

25 <sup>2</sup> See Mallin Decl. at Ex. 2.

26 <sup>3</sup> *Id.*

27 <sup>4</sup> Request for Reexamination, dated December 21, 2007. A copy of the Request was unavailable on the PTO website at the  
time this Motion was filed.

28 <sup>5</sup> Mallin Decl. at Ex. 3.

<sup>6</sup> *Id.*

1 substantial new questions of patentability based on 16 references pending in the two PTO reexamination  
2 proceedings.

3 **C. This Court Has Stayed Five Cases Based on the Pending Reexaminations**

4 SRDT has over twenty cases presently pending before this Court. Before the first request for  
5 reexamination was ordered, notwithstanding SRDT's incorrect argument to this Court that the PTO was  
6 unlikely to grant reexamination,<sup>7</sup> on September 10, 2007, this Court stayed SRDT's patent infringement  
7 lawsuit against a group of defendants including the Black and Decker Corporation,<sup>8</sup> concluding that  
8 even though that lawsuit had been pending for approximately one year, a stay was appropriate "to avoid  
9 the risk of unnecessary litigation and to permit the clarification of issues before this Court."<sup>9</sup> On  
10 February 28, 2008, this Court also stayed SRDT's actions against Giant and Helen of Troy for the same  
11 reasons as it stayed the Black & Decker case.<sup>10</sup> The Giant and Helen of Troy cases were filed on  
12 November 6, 2007 and December 4, 2007 respectively, *after* the first request for reexamination was  
13 granted. In granting those motions to stay, the Court noted "that a reasonable stay is appropriate . . .  
14 because the litigation is in its early stages, Plaintiff has not established undue prejudice, and the  
15 reexamination will simplify issues for the Court and save expenses for the parties."<sup>11</sup> Most recently, on  
16 March 19, 2008, this Court also granted the motions to stay in SRDT's cases against Energizer and  
17 Esseplast.<sup>12</sup>

18 All of the same reasons for staying those cases apply in this case also. In fact, in an attempt to  
19 avoid a contested motion, Defendants sent a letter to SRDT advising that a stay was appropriate.<sup>13</sup>  
20 Defendants also inquired whether SRDT would be opposing the motion to stay, and if so, on what new  
21  
22

23 <sup>7</sup>See *Sorensen v. Black & Decker, et al.*, Case No. 06CV1572 BTM (CAB), Doc. # 243, at fn. 2 (S.D. Cal. Aug. 7, 2006);  
24 Mallin Decl. at Ex. 4.

<sup>8</sup> *Id.*

<sup>9</sup> Mallin Decl. at Ex. 4, pg 10.

25 <sup>10</sup> *Sorensen v. Giant Int'l Ltd.*, Case No. 07cv2121 BTM (CAB) (S.D. Cal. Nov. 6, 2007); *Sorensen v. Helen of Troy, et al.*,  
26 Case No. 07cv2278 BTM (CAB) (S.D. Cal. Dec. 4, 2007).

<sup>11</sup> *Sorensen v. Giant Int'l Ltd.*, Doc. #28, at pg 1; *Sorensen v. Helen of Troy, et al.*, Doc. # 26, at pg. 1.

27 <sup>12</sup> *Sorensen v. Energizer Holdings Inc., et al.*, Case No. 07cv2321 BTM (CAB), Doc. # 33 (S.D. Cal. Dec. 11, 2007);  
*Sorensen v. Esseplast (USA) NC, Inc. et al.*, Case No. 07cv2277 BTM (RBB), Doc. # 31 (S.D. Cal. Dec. 4, 2007).

<sup>13</sup> Mallin Decl. at Ex. 5.

1 basis that this Court had not already considered. SRDT advised that it would oppose the motion, but did  
2 not provide any basis for why it would oppose.<sup>14</sup>

3 **II. STANDARD FOR A STAY PENDING REEXAMINATION PROCEEDINGS**

4 Courts have the inherent power and discretion to stay litigation proceedings pending the  
5 conclusion of a PTO reexamination. *Ethicon, Inc. v. Quigg*, 849 F.2d 1422, 1426-27 (Fed. Cir. 1988).  
6 Indeed, there is a liberal policy in favor of granting motions to stay litigation pending the outcome of  
7 PTO reexamination proceedings. September 10 Stay Order, at 5; *Photoflex Prods., Inc. v. Circa 3 LLC*,  
8 2006 U.S. Dist. LEXIS 3773, at \*2-3 (N.D. Cal. May 24, 2006). A stay is particularly justified where,  
9 as here, “the outcome of the reexamination would be likely to assist the court in determining validity  
10 and, if the claims were cancelled in the reexamination, would eliminate the need to try the infringement  
11 issue.” *In re Cygnus Telecomm. Tech., LLC Patent Litig.*, 385 F. Supp. 2d 1022, 1023 (N.D. Cal. 2005);  
12 *see also, Gould v. Control Laser Corp.*, 705 F.2d 1340, 1342 (Fed. Cir. 1983), *cert denied*, 464 U.S. 935  
13 (1983) (reexamination procedure serves to eliminate trial when the claim is cancelled).

14 Courts generally consider three factors in determining whether to grant a stay pending  
15 reexamination by the PTO: (1) the stage of litigation, i.e., whether discovery is almost complete and  
16 whether a trial date has been set; (2) whether a stay would cause undue prejudice or present a clear  
17 disadvantage to the non-moving party; and (3) whether a stay will simplify the issues in question and  
18 trial of the case. *See, e.g.*, September 10 Stay Order, at 5; *Photoflex Prods., Inc.*, 2006 U.S. Dist. LEXIS  
19 37743, at \*3. All three factors heavily favor a stay in this case.

20 **A. THE LITIGATION IS IN ITS PRELIMINARY STAGES**

21 The first factor weighs strongly in favor of a stay. This case was filed less than three months  
22 ago. Defendants filed their answer on March 5, 2008. The Rule 16 conference has not yet taken place,  
23 the parties have yet to exchange Rule 26 disclosures, nor has this Court set a scheduling order.  
24 Significantly, this case is at a much earlier stage of litigation than the *Sorensen v. Black & Decker* case  
25 which was stayed by this Court even before the first request for reexamination was ordered. Here, this  
26

27 <sup>14</sup> Mallin Dec. at Ex. 6.

1 lawsuit was not even filed until after the first request for reexamination was ordered and the second  
2 request for reexamination was filed.

3 Now, the second request for reexamination has been ordered. The two PTO reexaminations of  
4 the '184 patent will potentially invalidate the asserted '184 patent claims which would completely  
5 eliminate the need for a trial in this case. As this Court has recognized, since SRDT cannot amend the  
6 '184 patent claims, "there is obviously a significant likelihood that the validity of the claims at issue in  
7 this action will be affected by the reexamination process."<sup>15</sup> Allowing the PTO to continue its work  
8 while this case is stayed will "avoid[] the needless waste of resources before this Court."<sup>16</sup> *Broadcast*  
9 *Innovation, L.L.C. v. Charter Commc'ns, Inc.*, No. 03cv2223-ABJ-BNB, 2006 U.S. Dist. LEXIS 46623,  
10 at \*9-10 (D. Colo. July 11, 2006). Accordingly, this factor weighs heavily in favor of a stay. *See KLA-*  
11 *Tencor Corp. v. Nanometrics, Inc.*, 2006 U.S. Dist. LEXIS 15754, at \*6 (N.D. Cal. Mar. 16, 2006).

12 **B. A STAY WOULD PREVENT, RATHER THAN CAUSE, UNDUE**  
13 **PREJUDICE OR DISADVANTAGE TO THE PARTIES**

14 **1. A Stay Will Benefit, Rather than Unduly Prejudice, the Parties.**

15 A stay in this case will not unduly prejudice or disadvantage Plaintiff. "This factor is best  
16 summarized by one question: does the Plaintiff have an adequate remedy at law?" *See, e.g. Broadcast*  
17 *Innovation*, 2006 U.S. Dist. LEXIS 46623, at \*32. The resounding answer in this case is "yes". To  
18 begin with, the '184 Patent expired on February 5, 2008,<sup>17</sup> and thus Plaintiff is foreclosed any injunctive  
19 relief. Additionally, Plaintiff has an adequate remedy at law, since if the PTO does not invalidate the  
20 asserted claim of the '184 Patent, Sorensen will be able to pursue monetary damages for any  
21 infringement alleged to have occurred prior to the patent's expiration. *Id.* (citing *Laitram Corp. v. NEC*  
22 *Corp.*, 163 F.3d 1342, 1346 (Fed. Cir. 1998)).

23  
24  
25  
26 <sup>15</sup> Mallin Decl. at Ex. 4, pg. 9.

27 <sup>16</sup> *Id.*

28 <sup>17</sup> The '184 Patent expired on February 5, 2008. *See* U.S. Patent No. 4,935,184 (continuation of abandoned application Serial No. 07/152.670, which was filed on February 5, 1988) and 35 U.S.C. 154(a)(2).

1 Nor may Sorensen reasonably claim that a stay pending reexamination proceedings would  
 2 unduly prejudice him by delaying an award of monetary damages.<sup>18</sup> Courts have consistently held that  
 3 such a delay does not, in and of itself, constitute undue prejudice. *See, e.g., Photoflex Prods., Inc.*, 2006  
 4 U.S. Dist. LEXIS 37743, at \*7; *Nanometrics, Inc. v. Nova Measuring Instruments Ltd.*, 2007 U.S. Dist.  
 5 LEXIS 18785, at \*9 (N.D. Cal. Feb. 26, 2007). In any event, an award of prejudgment interest would  
 6 fully compensate Plaintiff for a delay in collecting any damages to which he may be entitled. Indeed,  
 7 this Court has already determined that the “general prejudice of [Sorensen] having to wait for resolution  
 8 is not a persuasive reason to deny the motion for stay.”<sup>19</sup> This conclusion is especially apt here where  
 9 only one patent is asserted and any delay is offset by the benefit inherent in ascertaining whether there is  
 10 any need for litigation. *Nanometrics*, 2007 U.S. Dist. LEXIS 18785, at \*10.

11 Rather than prejudicing any party, the timeliness of this motion has the potential to benefit all  
 12 parties by preventing the unnecessary expenditure of resources. As stated by the court in *Broadcast*  
 13 *Innovation*,

14 If the PTO does not invalidate or otherwise alter the claims of the [patent], the  
 15 Plaintiffs’ legal remedy remains unaffected . . . . Moreover, if the claims are  
 16 narrowed, both sets of parties will have benefited by avoiding the needless waste  
 17 of resources before this Court, and again, the Plaintiffs will be able to pursue their  
 18 claim for money damages at trial. Finally, if the claims are strengthened, the  
 19 Plaintiffs’ position will be as well, and their likelihood of monetary damages will  
 20 increase.

21 *Broadcast Innovation*, 2006 U.S. Dist. LEXIS 46623, at \*32-33.

## 22 **2. Defendants Will be Unduly Prejudiced if a Stay is Denied**

23 In contrast, Defendants face substantial prejudice if this Court denies this motion for a stay. As  
 24 the Federal Circuit has held, the PTO is not bound by decisions of this Court when conducting its  
 25 reexamination proceedings. *In re Trans Texas Holdings Corp.*, 498 F.3d 1290, 1296-98 (Fed. Cir.  
 26 2007). If this case proceeds pending the reexaminations, there is a risk that Defendants may be ordered  
 27 to pay damages for infringement of a patent that the PTO later determines is invalid.

28 <sup>18</sup> Reexamination proceedings take, on average, approximately 18-23 months to conclude. *See* Mallin Decl. at Ex. 7.

<sup>19</sup> Mallin Decl. at Ex. 4, pg. 7.

1 Substantial prejudice could therefore result, since Defendants may not be able to recover such  
2 damages after the PTO concludes that the asserted claim is invalid.<sup>20</sup> *Bausch & Lomb, Inc. v. Alcon*  
3 *Lab., Inc.*, 914 F. Supp. 951, 952 (W.D.N.Y. 1996). A stay will ensure that this highly prejudicial  
4 scenario does not occur.

5 **C. A STAY WILL SIMPLIFY THE ISSUES IN QUESTION AND POSSIBLY**  
6 **ELIMINATE NEED FOR FURTHER LITIGATION**

7 A stay will significantly simplify the issues in question and ensure that any judicial and party  
8 resources are spent only if trial is *necessary*.<sup>21</sup> “One purpose of the reexamination procedure is to  
9 eliminate trial (when the claim is cancelled) or to facilitate trial of [the issue of invalidity] by providing  
10 the district court with the expert view of the PTO (when a claim survives the reexamination  
11 proceedings).” *Gould*, 705 F.2d at 1342. Additional benefits of staying the litigation pending the PTO’s  
12 reexamination proceedings include:

- 13 1. Many discovery problems relating to prior art can be alleviated by the PTO examination.
- 14 2. The outcome of the reexamination may encourage a settlement without the further use of  
15 the Court’s time and resources.
- 16 3. The record of reexamination would likely be entered at trial, thereby reducing the  
17 complexity and length of the litigation.
- 18 4. Issues, defenses, and evidence will be more easily limited in final pretrial conferences  
19 after a reexamination.
- 20 5. The cost will likely be reduced both for the parties and the Court. *Broadcast*, 2006 U.S.  
21 Dist. LEXIS 46623, at \*9-10 (citing *Emhart Indus., Inc. v. Sankyo Seiki Mfg. Co.*, 3 U.S.P.Q.2d 1889,  
22 1890 (N.D. Ill. 1987)).

23 In granting the first request for reexamination, the PTO determined that the previously  
24 unconsidered prior art gives rise to substantial new questions of patentability. *See* First Reexamination

25 <sup>20</sup> Mallin Decl. at Ex. 4, pg. 7.

26 <sup>21</sup> Defendants also attempted to preserve these resources by avoiding a contested motion to stay. In particular, Defendants  
27 advised SRDT of this Motion in advance and sought SRDT’s agreement or an identification of any new bases for its  
28 opposition that this Court has not already considered in granting the other motions to stay. SRDT did not agree to a stay and  
did not identify any new bases for opposition.

1 Order, at 4-14. In view of that preliminary determination, there is a substantial likelihood that the  
2 validity of the asserted claims will be affected by the reexamination process.<sup>22</sup> With the PTO granting  
3 the second request for reexamination, invalidation is now even more likely. Because the '184 Patent  
4 expired on February 5, 2008, Sorensen is not permitted to amend claim 1 to overcome a determination  
5 that it is invalid in view of the prior art. See 37 C.F.R. §1.530(j) (2007); *Manual of Patent Examining*  
6 *Procedure* §2250(III).<sup>23</sup> Any such determination by the PTO will therefore effectively invalidate the  
7 asserted claim, thus eliminating the need for any discovery, pretrial proceedings, or trial in this case.

8 At a minimum, since a substantial number of the prior art references in the reexamination  
9 proceedings were not before the PTO during the patent's original prosecution, the Court will benefit  
10 from the PTO's analysis should this Court have to determine the validity of the reexamined claims.  
11 *Broadcast*, 2006 U.S. Dist. LEXIS 46623, at \*22-23; September 10 Stay Order, at 9.

## 12 II. CONCLUSION

13 When it provided for reexamination proceedings, Congress explained that, "it is anticipated that  
14 these measures provide a useful and necessary alternative for challengers and patent owners to test the  
15 validity of United States patents in an efficient and relatively inexpensive manner." H.R. REP. No. 96-  
16 1307 pt. 1, at 4 (1980), *reprinted in* 1980 U.S.C.C.A.N. 6460-6463. There could hardly be a more  
17 appropriate case than this one in which to allow this alternative process to play out. Given that this case  
18 is less than three months old, a stay has the potential to prevent the unnecessary expenditure of  
19 significant court and party resources. A stay would benefit, rather than prejudice, the parties. For the  
20 foregoing reasons, this Court should order this case stayed pending completion of the PTO's  
21 reexaminations of the '184 patent.

22  
23  
24  
25  
26 <sup>22</sup> See Mallin Dec. at Ex. 4, pg 9. Statistics show the validity of all claims is confirmed only 29% of the time when  
27 reexamination is requested by a third party. *Id.* That percentage may decrease in view of the Supreme Court's recent  
28 decision in *KSR Int'l Co. v. Teleflex Inc.*, 127 S. Ct. 1727 (2007), concerning the standard for establishment of  
nonobviousness.
